

**DECLARATION**  
**on the disposal of research infrastructure**

Due to the interest reported by  
..... (person and/or  
Institution), concerning the use of  
.....  
(name of the research stand at SOLARIS) within the project  
.....  
(title or shortly scope) on behalf of the SOLARIS National Synchrotron Radiation  
Center, I declare that the designated research stand belongs to the generally  
available research infrastructure, administered by the Center, and that the use of  
facilities is free of charge, on the basis of open call for proposals, where the main  
evaluation criterion is scientific excellence.

This profession does not constitute a declaration of access, but I am deeply  
convinced that each project of high substantive value will receive research time  
on the infrastructure at the SOLARIS Center's disposal.
